

DEVLIN BOOTH

PROFESSIONAL SUMMARY

Full stack software developer with experience developing with multiple different technologies. Detail-oriented, organized and meticulous employee. Works at fast pace to meet tight deadlines. Enthusiastic team player ready to contribute to company success. Complex problem-solver with analytical and driven mindset. Dedicated to achieving demanding development objectives while producing impeccable code. Smart professional with proven troubleshooting and debugging capabilities for resolving complex technical issues.

EXPERIENCE

Lead Developer, 10/2023 - Current

XYLA, Remote, Los Angeles, CA

- Lead developer for the company's two main projects.
- Collaborated with UX/UI designer to complete both web and mobile application designs using react and react native/expo accordingly.
- Restful API design for both projects that includes real time communications, Amazon Product API, and Amazon / Google OAUTH Implementations.
- Database designer.

Software Engineering Associate, 06/2022 - Current

General Assembly, Remote, Los Angeles, CA

- Guided over 90 students through the rigorous transformational journey of becoming a full stack software developer.
- Facilitate understanding of key full stack concepts including: data structures, languages, front-end libraries, database design (sql/nosql), web frameworks, and much more!
- Provide hands-on instruction in a safe, supportive, and energetic environment; welcoming students with diverse needs and learning styles.
- Leverage strong communication skills while educating students in developing Full Stack applications

Software Engineer, 03/2023 - 08/2023

HackForLA, Remote, Los Angeles, CA

- Website Team - hackforla.org
- Full Stack Developer, working remotely across teams to complete design issues using Kanban and continuous integration/continuous delivery (CI/CD) methodology
- Contribute to open-source Hack for LA website repository through issue completion, code review
- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability, and performance.

Los Angeles, CA 90046

SKILLS

- JavaScript, Python
- ReactJS, HTML / CSS
- React Native / Expo
- ExpressJS, Django, Flask
- MongoDB, PostgreSQL, ORM
- Pandas, NumPy, Scikit-Learn
- Docker
- Mocha / Chai testing
- RESTful API Design
- Socket.IO

EDUCATION

Certificate, Data Science, 2023

General Assembly - Remote

Certificate, Software Engineering, 2022

General Assembly - Remote

Master of Arts, Landscape Architecture, 2011

Louisiana State University

Bachelor of Science, Urban Planning, 2007

University of New Orleans

Software Engineering Apprentice, 11/2022 - 02/2023

App Academy, Remote, Los Angeles, CA

- 450 hour program to reinforce existing knowledge and expand in to new technical territory
- Completed over 1000 code challenges, projects, and course materials to strengthen core software engineering concepts.
- Utilized Mocha/Chai testing frameworks and assertion libraries to implement test driven development at unit, integration and End-2-End test levels.

Server / Trainer / Special Events, 07/2019 - 09/2021

AVRA Beverly Hills, Beverly Hills, CA

- Trained new team members on restaurant procedures, menu items, and performance strategies.
- Demonstrated strong knowledge of food and beverage service standards and led by example to instill in new servers.
- Instructed servers on proper techniques for taking orders, serving food and providing customer service.
- Taught servers to memorize menu ingredients and provide information on preparation methods.
- Organized and implemented fine dining events with as many as 30 guests.

Server / Trainer / Special Events, 10/2013 - 06/2019

TAO Uptown, New York, NY

- Trained new team members on restaurant procedures, menu items, and performance strategies.
- Demonstrated strong knowledge of food and beverage service standards and led by example to instill in new servers.
- Instructed servers on proper techniques for taking orders, serving food and providing customer service.
- Taught servers to memorize menu ingredients and provide information on preparation methods.
